PROFIL

A graduate in applied statistics with expertise in data analysis, predictive modeling, and data visualization, particularly in the banking and financial sector. Driven by analytical challenges, I aim to leverage my skills in data science and AI to deliver actionable insights, optimize processes, and support strategic decision-making.

WORK EXPERIENCE

Billing Analyst – OGS (BOA Affiliate)	DEC 2024- Present
• Analyzed Mastercard and Visa transaction fees to detect anomalies and unjustified increases using Python, SQL and Excel. • Optimized billing fees for partners and conducted profitability studies with data modeling and statistical analysis. • Monitored compliance and ensured regulatory alignment to prevent penalties. • Developed recommendations to balance costs, strengthen partnerships, and improve profitability, creating dashboards and visualizations to support decision-making.	
Freelance Data Scientist	OCT 2024- Present
• Data analysis and predictive modeling (banking, sales, and retail). • Strategic reports and actionable insights to support decision-making.	
Data Scientist – Web Scraping & Automation - OSE · Freelance	DEC 2024 - FEV 2025
• Développement d'un script de web scraping automatisé et d'un pipeline Python évolutif pour extraire et structurer des données socio-économiques sur 33 pays.	
Data Scientist Internship - Haut Commissariat au Plan Rabat	Nov 2024 - FEV 2025
• Developed a poverty classification model using SVM and survey data. • Conducted data preparation, exploratory analysis, and model optimization. • Delivered Python scripts for quarterly poverty predictions and reporting	
Data Analyst, Internship - Sofrecom (Orange affiliate)	SEP 2023 - Jan 2024
• Problème : Visualisation et suivi des KPI manuels. • Solution : Organisation des données en SQL, visualisations et tableaux de bord automatisés dans Power BI	

EDUCATION

PhD candidate in Machine Learning for Metaheuristics	2022 - 2024
-Faculty of Sciences Aïn Chok Casablanca	
Master's degree in Numerical Methods and Applied Statistics.	2020 - 2022
-Faculty of Sciences Aïn Chok Casablanca	
Bachelor's degree in Mathematics and Applications.	2016 - 2020
-Faculty of Sciences Aïn Chok Casablanca	
High School Diploma in Mathematics	2016
- ALKHAOUARIZMI High School	

PROJECTS

- Casablanca Stock Exchange Analysis and Forecasts
- Credit Card Fraud Detection using Machine Learning
- Binary Classification with a Bank Churn Dataset
- Exploring spam messages using NATURAL LANGUAGE PROCESSING

SKILLS

- **Programming & Tools:** Python, R, SQL, Power BI, Tableau, Matplotlib, Hadoop, Spark, AWS, Azure
- **Data Science & Analysis:** Statistical analysis (regression, ANOVA, hypothesis testing, time series, econometrics), machine learning & AI (supervised/unsupervised learning, deep learning, NLP, forecasting, data mining), data wrangling (collection, cleaning, preprocessing, web scraping)
- **Banking & Payments:** Transaction fee analysis (Mastercard, Visa), billing optimization, ATM profitability, fraud detection, compliance monitoring, financial reporting

LANGUES

Arabic: Native language.
French: Fluent.
English: Proficient
